YASH GUPTA

Third-year Computer Science undergraduate at Noida Institute of Engineering & Technology.

+916307205261 yashg5304@gmail.com LinkedIn GitHub LeetCode Greater Noida, India

PROFESSIONAL SUMMARY

Third-year Computer Science undergraduate with strong skills in **Object-Oriented Programming** and backend development. Experienced in building scalable web applications through hands-on projects, including a MERN social media app that utilized Socket.IO for real-time communication. Actively seeking a Software Engineering Intern role to contribute to scalable backend systems and reliable software solutions.

EDUCATIONS

Noida Institute of Engineering & Technology | Greater Noida, India — Aug 2024 - May 2028

Bachelor of Technology (B.Tech)

- **CGPA: 9.00 / 10.**

P.S.V.M Inter College | Kanpur, India — Jun 2020 - May 2022

Secondary & Intermediate Education

- **Secondary score: 87.5%**
- **Intermediate score: 87.8%**

PROJECTS

SeeMedia | Github △ Vercel

- Built a **MERN** social media app with **6 content types** (posts, reels, stories, comments, likes, saves), follow system, and dynamic explore feed via unified API.
- Reduced message latency to **near-zero** via Socket.IO real-time 1:1 chat, live online-user tracking, and instant notifications across **3 event channels**.
- Designed **15+ REST API routes** across **5 modules**; secured with **JWT cookie auth** and Bearer fallback; enforced **24-hour TTL** auto-expiry on stories.
- Modelled **5 Mongoose schemas**; integrated **Cloudinary** for media uploads; managed global state with **Redux Toolkit**. Deployed on **Vercel & Render**.

Technologies / Tools Used : *MongoDB, Express.js, React.js, Node.js, Socket.IO, Redux Toolkit, Cloudinary*

FlowTunes | Github △ Vercel

- Built full-stack music streaming app with **Next.js 16** and **Supabase** (PostgreSQL + JWT auth); integrated **Google OAuth** and secure login across **6 DB tables**.
- Engineered **self-healing stream resolver** with **1-hour TTL cache** (Zustand + Immer); auto-retries via **JioSaavn/Piped fallback chain** on decode failure.
- Synced **real-time lyrics** via JioSaavn and LRCLIB APIs; built **Canvas-based color extractor** that updates global CSS theme variables per track.
- Deduplicated recently played log using **Set filtering** for top **6 unique tracks**; enhanced UI with **Framer Motion** and Tailwind CSS v4. Deployed on **Vercel**.

Technologies / Tools Used : *Next.js, React.js, TypeScript, Supabase, Zustand, Framer Motion, Tailwind CSS*

Cloudinary SaaS | Github △ Vercel

- Built full-stack **SaaS** for video upload, compression, and cloud media management using **Next.js**, **Cloudinary**, **PostgreSQL**, and **Prisma ORM**; reduced video size by **40%+**.
- Secured **100% of API routes** via **Clerk auth** with email/password and **OAuth login**; validated all server-side requests through session checks.
- Managed video metadata (size, duration, public ID) using **Prisma ORM** with **PostgreSQL**. Deployed on **Vercel** with Tailwind CSS and DaisyUI.

Technologies / Tools Used : *Next.js, TypeScript, Cloudinary, Clerk, PostgreSQL, Prisma ORM, Tailwind CSS*

SKILLS

Databases :	PostgreSQL, MySQL, MongoDB, Redis, Supabase, Firebase
Frameworks & Libraries :	React, Next.js, Vue, Node.js, Express, Tailwind CSS
Languages :	English, Hindi
Programming Languages :	C++, C, Python, JavaScript, TypeScript, Object-Oriented Programming
Soft Skills :	Communication, Teamwork, Adaptability, Collaboration, Decision Making
Tools & Platforms :	Git, GitHub, GitHub Actions

AWARDS & ACHIEVEMENTS

- Rank 4105 out of 13,000+ participants — IICPC CodeFest 2026 Global Prelims (DTU).
- Rank 1402 — LeetCode Weekly/Biweekly Contest.
